DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/02/2006 has been entered.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Block et al.

Block et al. discloses the claimed invention, including a fin box mounted within a surfboard, and including an upper wall facing outwardly. A fin is provided including a foot sized to be received within the box. A fin lock **46,48** is capable of being released by hand to allow the fin to be adjusted in a plurality of positions.

The fin has an overlapping portion extending fore and aft of the foot, about the periphery of the fin adjacent the foot. The overlapping portion overlaps a portion of the upper wall of the box.

Re "adjacent the entire periphery", such is not a positive recitation of extent of the overlapping portion the entire periphery, only that such is somehow "adjacent" the periphery.

Re "extending about a periphery", again such is not a positive recitation of extent around the entire periphery.

4. Claims 18-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson.

Johnson provides a fin having a foot as claimed. The foot is sized for receipt in a fin box, which includes detents formed by respective wall and foot portions. Such portions are engaged manually by the user.

5. Claims 1-17 are allowed.

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ed Swinehart whose telephone number is 571-272-6688. The examiner can normally be reached on Monday through Thursday 6:30 am to 2:00 pm..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Samuel Morano can be reached on 571-272-6684. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
